Justina

Thanks. Troy Lyons is recommending not to do this, at least at this point in time. Taking his advice seems very reasonable. However, if and when I do this, I will make sure to keep the playing field level and not to accept any gifts.

Cheers!

Michael

Hi there,

Thanks for sharing your note with me, too. As I understand the premise, you will be invited to listening sessions sponsored by someone else, not EPA. I don't know what criteria you used to identify with whom to meet, but do keep that a level playing field. In other words, remain open to any overture for meetings and don't provide preferential treatment to any particular entity over others. By the way, I checked, and neither of the two individuals mentioned below is a federally registered lobbyist. To the extent that other people not yet identified participate, do bear in mind that, as a political appointee who signed the pledge, you cannot accept any gifts at all from lobbyists.

Justina

Valerie and Tate

I will be in Ohio for the week of November 20 (at no cost to the government), and wish to offer folks the opportunity to state their concerns or comments on what EPA is doing. I plan to listen and not to otherwise make any statements about pending EPA actions, unless of course, it is in EPA's best interest to do so.

I have contacted Mr. Ralph Hall, the Environmental Health and Safety Director at Nanogate Jay Systems, which is located at 515 Newman St., Mansfield, Ohio 44902. His email is: Ralph.Hall@nanogate.com; cell number Ex. 6 Personal Privacy (PP) [419-521-0338](tel:419-521-0338), Office: 419-521-0338, Fax: 419-522-5936. His group is interested in new chemicals and would also be willing to invite other interested industries for a listening meeting.

Mr. Matthew Culler of Agro InfoTech is also interested in a listening session, and would be happy to set up a meeting of farmers and farm-related groups. He can be reached at 419 651-4077 or mculler@infotech.net.

Please let me know of other groups that might be interested in such a listening session. I plan to be working Monday, Tuesday and Wednesday. Also, please let me know if you want me to contact these two gentlemen directly. I am sure that both of you are very busy.

Cheers

Michael...

Valerie

Would you please work with Tate Bennett of the Administrator's office to set up a series of meetings with me and farming and other groups in Ohio for the week of November 20. I will be in Ohio during this week (at no cost to the government), and wish to offer folks the opportunity to state their concerns or comments on what EPA is doing. I plan to listen and not to otherwise make any statements about pending EPA actions, unless of course, it is in EPA's best interest to do so.

Matthew Culler of Agro InfoTech would be willing to meet with me and several of his colleagues. He can be reached at 419 651-4077. Of course, I would be wanting to meet with any group that has an expressed interest in what EPA is doing.

Thanks!

Michael...
